Illustrating the Expertise:  
*Minimally invasive facial volumisation with Restylane and the Pix'L microcannula*

**Dr. Katrin Dreissigacker**  
**(Plastic Surgeon, Germany).**

*March 26th Friday, 2010*

**Katrin Dreissigacker** is a medical specialist (Fachärztin) for plastic and aesthetic surgery. From 1990 until 1997, she studied human medicine at the Humboldt Universität, Berlin, as well as at the Freie Universität, Berlin, and graduated with honors. She then completed one-year internships at the Universitätsklinikum Rudolf Virchow, Berlin, the Groote Schuur Hospital of the University of Cape Town, South Africa, and in the Regionalspital Interlaken in Switzerland.

Between 1997 and 2005, she was trained as a medical specialist in plastic and aesthetic surgery in several prestigious clinics such as the Center for Burn Victims of the Urban Krankenhaus, Berlin, under Dr. Dr. med. J. C. Bruck, the Department of Plastic Surgery of the Asklepios Klinik Birkenwerder, Dr. med. K. Ueberreiter, the Out-Patient Clinic for Plastic Surgery in Santos, Brazil, the Department of Aesthetic and Plastic Surgery of the Meoclinic Berlin, Dr. med. D. Witzel, the Center for Aesthetic-Plastic Surgery/Hand Surgery of the MediaPark Klinik, Cologne, Dr. (TR) Eren.

Since December 2005, Dr. Dreissigacker has been working as a self-employed medical specialist for plastic and aesthetic surgery with a primary focus on nonsurgical treatments in the MediaPark Klinik in Cologne. Since 2004, she has also been active as an internationally recognized trainer in the field of optimum clinical application of all Restylane® products in aesthetic medicine. Since that time, she has also been a certified member of the German Society for Aesthetic Botulinum Toxin Therapy e.V. (Deutsche Gesellschaft für Ästhetische Botulinumtoxin-Therapie e.V.).
